July 2017

REMINDER

R/T USE

Most of our operational vehicles and machines have R/T's fitted to provide vital communication for our various forest activities. Pan Pac simply could not function without them. We have also fitted R/T's in several school buses around our forests to enhance their safe travel amongst our forest traffic.

Please remember this form of contact is strictly for **WORK PURPOSES ONLY**, so please remember to keep your conversations brief and keep them clean.

There are a lot of people using the network, so let's be fair to everyone and not compromise the safety of others.

KEEP IT TO A
MINIMUM
