ROAD CLOSED STOP AND PROCEED

To end confusion on Road Closure, these are the rules you must follow:

Full Road Closure

- “Road Closed” sign in centre of road **and** full road width tape or barrier (or road width “Road Closed” banner).
→ This means the Road is **CLOSED** to **all** traffic – **absolutely no access** until the person responsible (i.e. the person who erected the signage) re-opens it. **You must NOT move the signage or enter the road until the road is opened!!**

Temporary Road Closure – Unmanned

- “STOP – Proceed Only When Instructed” sign on side of road **and** full road width tape or barrier (or road width “STOP – Proceed Only when Instructed” banner).
→ This means the Road is temporarily **CLOSED** to **all** traffic – **absolutely no access** until the person has made contact and clearance is given. **You can ONLY move the signage and proceed when you have the go-ahead.**

Flagman Controlled – Temporary Road Closure

- Flagmen with appropriate signage controlling access of traffic through the hazard zone.
→ The flagmen control access.
